SKILLS

PLanguages & Frameworks

- Java EE & Spring Boot (REST API)
- C# & ASP.NET Core
- JavaScript & React

DevOps & CI/CD

- Docker & Docker Hub
- GitLab & GitHub
- CI/CD Pipelines
- SonarQube

Architecture & Communication

- Microservices Architecture
- RabbitMQ (Message Broker)
- Authentication & Authorization
 - Auth0, Cleric, Keycloak

Databases

- SQL & NoSQL

Project & Team Skills

- Project Management
- Scrum Methodology
- Teamwork & Collaboration
- Effective Communication
- (DOT) Framework

LANGUAGES

- English
- Dutch(intermediate level)
- Arabic

PROFILE

I am an ICT & Software Engineering student with a business background and hands-on experience as a Junior Accountant. My passion lies in combining technical innovation with business logic. I dedicate most of my time to coding, attending tech conferences, and exploring financial markets such as stocks and cryptocurrencies. I bring a strong foundation in software development, cloud services, and agile methodologies, with a growing interest in data analytics and machine learning.

WORK EXPERIENCE

Software Engineering Intern

Gate Property Management Software – Tilburg, NL

Sep 2024 – Jan 2025

Designed and implemented a modular logging framework using JavaEE, SLF4J, and Logback to improve error tracking, asynchronous logging, and secure data handling.

Integrated WebSocket technology to enable real-time updates and notifications, improving the responsiveness and interactivity of the GatePMS platform.

Followed Agile-Scrum methodology, participated in daily stand-ups, sprint planning, and stakeholder demos.

Conducted unit, integration, and usability testing for logging and WebSocket features, ensuring reliability under high concurrency (1000+ users).

Applied the DOT Framework for structured research and implementation, including competitive analysis of logging tools and performance benchmarking.

Collaborated with cross-functional teams and mentors to gather feedback and align project deliverables with business goals.

Key Technologies: JavaEE, WebSocket (WSS), SLF4J, Logback, NoSQL, ELK Stack, Docker, Agile, GitLab, Jira, Apache JMeter
